Ohio Statehouse Parking Garage
Automated Payment System

Daily parkers are required to take their parking ticket with them and use any one of the five "Pay-on-Foot" payment machines prior to returning to their car and exiting the Statehouse parking garage. Pay-on-Foot payment machines are located throughout the green level of the parking facility.

The Pay-on-Foot machines are located near the north and south Statehouse garage entrances and the stairwells to Broad and High Streets, State and High Streets and the garage office area. The machines accept cash, as well as MasterCard, Visa, American Express and Discover Card credit cards.

How the new process works for daily Ohio Statehouse parkers:

1. Enter Ohio Statehouse Underground Parking Garage and take parking ticket from machine. (Gate goes up)
2. Proceed to parking stall on any of the three levels.
3. When leaving vehicles, parkers must take their parking ticket with them.
4. Complete task, meeting, event or reason for parking in Statehouse parking garage.
5. Proceed to any one of the five conveniently located Pay-on-Foot payment stations, located throughout the Green Level of the parking facility.
6. Insert parking ticket and make payment with cash or credit card.
7. Remove parking ticket and receipt. (Upon payment, parkers have 15 minutes to exit the parking garage).
8. Return to vehicle. Proceed to gate and insert parking ticket into machine and exit. (Gate goes up).

Substantial signage reminding drivers to "pay for parking prior to exiting" is located on all levels throughout the parking garage.

Three easy steps for Ohio Statehouse daily parkers:

1. Take a parking ticket while entering the garage. Keep the ticket after leaving vehicle.
2. Prior to returning to vehicle, insert parking ticket in one of the automated pay stations located throughout the green level of the parking garage. Cash or major credit cards are accepted. After making payment, you have 15 minutes to exit garage.
3. Insert validated ticket at the exit gate.
