**LOCATION:** **Danny Boy's – The Back Room**  
6207 Milan Rd (US 250)  
Sandusky, OH 44870

**TOPIC:** Traffic Calming and Highway Safety -  
Where we are going and where we  
have been.

**SPEAKER:**  
**JEAN HARTLINE, P.E. – THE MANNIK & SMITH  
GROUP, INC.**

Jean Hartline, is a well known and well respected transportation engineer, Ms. Hartline has more than 20 years of experience in the area of traffic engineering. She is well versed with ODOT and MDOT standards and procedures for the development of transportation projects. Her curriculum includes development of geometrics for interchanges, major highways and large private development projects: interchange modification/justification studies; traffic signal system design; traffic impact studies; transportation master plans for communities; access management plans; and preparation of environmental documentation for major transportation projects. Due to her recognition as a traffic expert, she is regularly asked to conduct public presentation before planning commissions, city councils, county commissions, other public forums and private clientele.

She specializes in:

- Transportation Master Plans
- Traffic Signal & Signal System Design
- Traffic Impact & Access Management Studies
- Interchange Modification Studies

Work Experience:

- The Mannik & Smith Group, Inc. – 1989-Present
- City of Toledo (Transportation Div.) – 1983-1989

OR TEL. 419.663.6735

### **CPD INFO: 1.0 CPD AVAILABLE**

### **COST (BUFFET-STYLE PIZZA):**

Members \$10  
Non-members \$10

### **IN THE WORKS!!!: Sept - DESIGN/BUILD PRESENTATION**

**DID YOU KNOW?** [Engineering](#) has been an aspect of life since the beginnings of human existence. Civil engineering might be considered properly commencing between 4000 and 2000 BC in [Ancient Egypt](#) and [Mesopotamia](#) when humans started to abandon a [nomadic](#) existence, thus causing a need for the construction of shelter.
