President's Welcome

Greetings, Let me first start by thanking everybody I have had the pleasure of working with for your help and team work in the past couple years on the board. I would like to thank the new Trustees for volunteering their time to sit on the board and help us through this term's challenges we are to face.

My goal as President is to exceed the expectations of my peers. I feel with the team we have listed to the left this will be very attainable. I have tough shoes to fill considering the past presidents I follow. However, I am certain since they still serve I will get the support and constructive criticism I will need when faced with future issues.

Let me give you a brief description of myself for those reading that may not know me. I am a licensed Professional Engineer in Ohio and Michigan with the LEED AP accreditation. I am one of two Electrical Engineers at Buehrer Group Architecture and Engineering, Inc. It is a great place of employment with many daily challenges. I am a father of two wonderful boys and very lucky husband to have my wife, Katie. I fancy duck hunting and carving when there is time. I live by "work first, play later" thanks to my mother and father.

Thank you for the opportunity to serve as your 2009-2010 TSPE President.

LEADERSHIP

President

Corey Zachel, PE, LEED AP
