Akron District

President's Welcome

October, 2019

"Not all engineers drive trains." That's the message of the annual Imagine Engineering coloring contest program for local 2nd graders. It's one of several programs with which the Akron District Chapter of the Ohio Society of Professional Engineers (ADSPE) is involved. Reading to the 2nd graders and spending some time answering an array of questions is a fun out-of-the-box activity that ADSPE has the privilege of doing every year. It's heart-warming to see all the things that engineers do through the eyes and artistic talents of the children. In addition to Imagine Engineering, ADSPE participates in and volunteers at (Engineer's) E-Week, MATHCOUNTS (6th through 8th grade math competition), and local science fair judging opportunities throughout the school year.

As new President of ADSPE, I encourage Akron engineers both young and old to come join ADSPE and assist us in getting the word out about the importance of engineering in our society and some of the wonderful opportunities moving forward.

Best wishes,

Matt
